REORGANIZATION OF THE OFFICE OF SECURITY

I. Task Force Members

25X1A

II. Mission

There should be a sweeping reorganization of the Office of Security. In effect, the Director of Security wants a complete organizational study, showing where we are at the present time, and an organizational chart, which reflects the recommended changes of the Task Force.

III. Goals

- A. A "total consolidation" of DD/IOS and DD/PS.
- B. An internal reorganization of DD/PTOS.
- C. A consolidation of A&TS and ES.
- D. A dissolution of Security Research Staff, "with provisions" for three or four officers in DD/PS.

IV. Reduction in Slots

The reorganization study should operate on the presumption that the Office of Security will lose [redacted] slots. The cut might include some supergrades, but there is nothing specific in terms of grade or position--professional or clerical. On the supergrades, there was reference to D/OS, DD/OS, Executive Officer, "one in each Directorate," as well as [redacted]

More and more people asking "why" we do things certain ways.
